

Hello Guru

Your supervisor has given you an account on the CATs Step website. This will help you learn English online, at school or at home. Your user details are shown below:

Username: GuruOJ2469

Password: TXJVVC35

How to access CATs Step the first time

The first time you access CATs Step you need to take a short test. Your supervisor or parent will help you with this:

1. Go to www.catsstep.education and click on the **Get Started** button
2. On the next page enter the user name and password below in the section called **Under 16 years**
3. Follow the instructions which are on the screen to take the test

Using CATs Step to learn English

After you have taken the test you can start learning with CATs Step. You can learn on a tablet with the CATs Step app or you can go to the CATs Step website at www.catsstep.education.

To get the CATs Step app, your parent or supervisor needs to go to the Google Play Store or Apple App Store and search for **CATs Step Primary English**. Once the app is downloaded you can enter your user name and password which are above. If you need any help, let your supervisor know.

Good luck with your learning!
